

Controlled Motion Solutions, Inc.

Ultra Clean specializes in contamination control technologies for industries that require contamination free hoses and tubes to prevent costly equipment downtime or failure.

Ultra Clean offers a **fast, less** invasive way to clean contaminated hydraulic lines by shooting a projectile through the hose or tube assembly with a pneumatic launcher. The Ultra Clean projectile strips out the internal contamination, removing dirt, gunk and oil.

Launchers

- Cleaning only takes seconds
- Variety of cleaning hose, hose assemblies, tube and pipe up to 4½" ID
- Bench-mountable launchers, projectile verifications systems, automatic loading systems

Projectiles

- Cleans by being compressed against internal surface of hose, tube or pipe
- Pressure is achieved as projectile is approximately 20-30% larger than internal diameter of hose, tube or pipe

Nozzles and Adapter Rings

- Wide range of nozzles available, different sizes and type of hose, tube and pipe
- Coupling configurations
- Special nozzles can be made to suit specific applications, including aluminum, hard coat anodized nozzles

Accessories

- UC-DI super dry compressed air dryers
- Launcher stands
- Nozzle holders
- Projectile catcher and bench mount tables
- Ultra Clean carrying case
