

## General Description

The Canfield Connector 9G linear magnetic position sensor is designed to work with aluminum extrusion type actuators that have a $6.2 \mathrm{~mm} \times 4.4 \mathrm{~mm}$ rectangular groove designed into the body. Available in reed or electronic versions, the 9G fits into commonly used sensor grooves. Standard connection to the sensor is provided by a 9 ft . PVC or 8 mm quick connect male pigtail. The switch is water resistant and dust tight to IP67.
