

Non-Metallic NEMA 4X Junction Boxes

Medium-to-large sized junction boxes, fabricated in PVC Sheet, make protection of your wiring easier, faster, and safer.

Typically, your only choice for medium-to-large junction boxes has been traditional steel boxes.

Heavy to carry, prone to corrosion, difficult to cut, and

easy to damage...but available. Now, you have a choice of rugged, durable, light, non-corrosive, watertight, Type II PVC junction boxes. Using a patented system, these junction boxes are fabricated using a state-of-the art, computer controlled process that features full penetration welding, just like steel boxes.

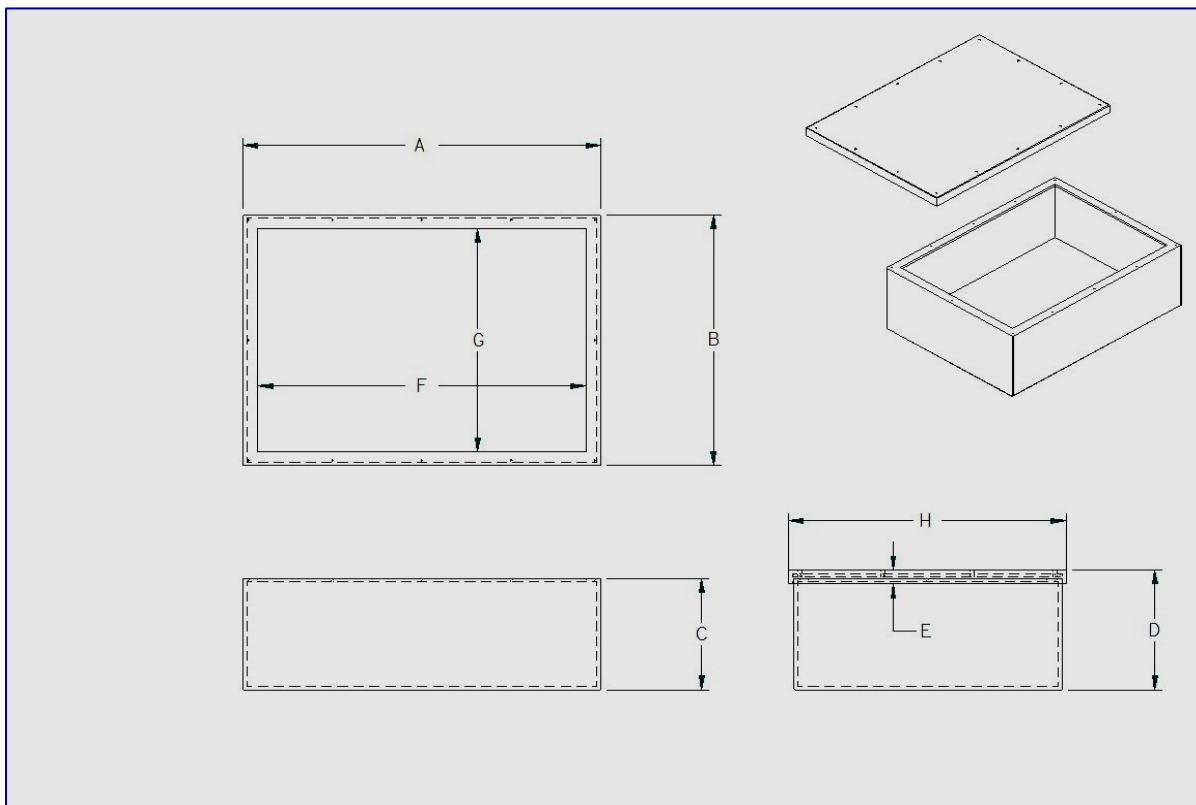

Features and Benefits

- ✚ Type II PVC material with "uni-body" construction technique, combined with full penetration, like-material welding produces a strong, durable enclosure.
- ✚ UL-94 V-O Flame Rating
- ✚ Suitable for exposure to heat up to 90 degrees C°, just like PVC conduit
- ✚ Use standard PVC solvent cement to attach fittings
- ✚ NEMA 4X construction
- ✚ **Custom sizes available upon request**
- ✚ **Custom features such as windows, subpanels, or internal mounting bosses are available**
- ✚ Junction Boxes are packaged in individual cartons for safe shipping
- ✚ The "Clever Mount" mounting feet system makes installation easy and adaptable
- ✚ Patent Numbers 6,110,086/5,555,989/5,316,165
