TANK-FILLER BREATHERS

REMOVABLE BASKET UNITS

The strainer baskets in these units pull out creating an easy point of entry into a hydraulic or lube oil reservoir for a suction hose. Allows easy removal of fluid. They are available with the same choice in accessories as the standard top-mounting units have. It's also easier to clean the basket of any dirt accumulation.

HOW TO ORDER REMOVABLE BASKET UNITS

Select the desired specifications from the ordering table and build an ordering code number, as shown in this example:

ABR - 1000 - 6 - HN - DS-6 - LL - BPC
 CAP ELEMENT BASKET NECK DIP Lockable Powder
