

HYDAC

*Custom Hydraulic
Cylinders*

Engineering and Design

We utilize the latest technology available for 3D modeling and functional analysis to deliver the optimal design for each application. We offer customized reports and design validation through Finite Element Analysis (FEA).

- Design & application expertise
- Innovation
- System Integration
- Custom design solutions

Testing and Qualification

Each unit must pass a series of stringent inspections and functional tests to ensure we deliver the highest quality product. All cylinders are tested at 150% of the maximum allowable working pressure utilizing high intensity ultraviolet technology.

- CMM
- Non destructive testing
- Oil diagnostics

Sales and Service

HYDAC has a global presence with sales offices and technical capabilities in nearly every country. We have cylinder operations in the US, Germany and India.

Hydraulic Cylinders Series

Weld Series

- Economical
- Good service life
- Welded construction
- Bores from 5" – 10"
- Strokes up to 300"
- Available in stainless

Mill Series

- Heavy Duty
- Excellent Service Life
- Modular Design for ease of serviceability
- Bores from 5" – 20"
- Strokes up to 300"

Hybrid Series

- Heavy Duty
- Excellent service life
- Bolted head/Welded Base
- Easy access to repack seals
- Bores from 5 – 20"
- Strokes up to 300"

Custom Series

- High pressures
- Special materials
- Harsh environments
- System integration
- Large bore
