Well conceived

Haewa Group has gained a strong profile as an innovative and competent supplier for the machinery, systems, electrical and electronic industries, well beyond European geographic borders. We develop and sell customized and economical solutions for various applications. Our decade long experience in building enclosures, as well as our close cooperation with end

users guarantee optimal benefits for our customers. Our comprehensive customer connections lead from initial contacts to concept development, to production, to delivery and, finally, to detailed logistical support.

We provide value added customer service by solving problems and by acting as reliable partner during the development

process. 'Made in Germany' is our yardstick for quality.

We are serving an ever expanding customer base, together with our established industry partners and a highly motivated team of over 380 employees.

	Rack systems	Singular and rows of racks in steel and stainless steel, PC racks
	IT solutions	Server and distribution rack systems, enclosures and housings
	Housings	Wall mounted housings, small size and connection boxes in steel, stainless steel, plastic and aluminum
	Fire protection	Safety through steel: functional continuity and escape route safety
	Thermal components	Heating, ventilating and cooling
	Ducts, accessories	Enclosed ducts throughout the rack
	Custom build	Machinery and special enclosures
	Tools	Mobile apparatus, factory equipment and automation

Modular system – advantages

Today and for the future
Your modular IT RACK system

Requirements for IT RACKS

Within the network distribution and computing center business there is consensus on the general requirements for IT rack systems, such as:

- Optimal ratio between spatial needs and usable height
- The need to expand or make changes during operation
- High weight carrying capacity
- Simple and quick mounting on site
- Flexible and cost effective assembly
- Auxiliary ventilation and air conditioning
- Effective grounding
- Pre-planned infrastructure for cabling and power supply
- Most significantly: orderly and efficient cable runs, which also permit easy troubleshooting

**IT means growth,
development
and adaptation.**

**That is why we
conceived the IT Rack
like an organism:**

Skeleton

- strong
- flexible
- expandable

Muscles

- Inside installation for network distribution (passive)
- Inside installation as server rack (active)
- Mixed inside installation

Circulation

- Infrastructure
- Thermal management
- Grounding concept

Skin

- Surround enclosure
- Roof and floor covers
- Door closure

**The first modular system
that complies with every wish.**

IT RACKS – solutions for advanced requirements

Six compelling reasons that speak for haewa's modular system:

1.

**The Rack expandable with
100% modular growth,
expandable during operation**

- The rack is independent of a particular installation and expandable according to needs and space requirements
- Sizing is guided by optimal 750 mm width and 19" wide components
- The rack is being offered in two heights, i.e. 42 and 45 U usable height
- Cable management and infrastructure are unimpeded outside the spatial limits of the 19" confines or zones. The design of the basic module and the depth maintains the functionality of the base riser. It offers 100 mm usable height at top and bottom.
- Four combinable Depth profiles (TP) make up the optimal depth for the rack. Module TPM1 serves as base module and represents the usable cable space along x, y and z-axes.

IT RACKS – solutions for advanced requirements

Zone 1

Zone 2

Zone 3

Zone 4

Six compelling reasons that speak for haewa's modular system:

2.

define and make space

Five zones

Zone 5

Zone 1

- Room for plenty of cable
- Depth of 128 mm for large bend radii

Zone 2

- Room for plenty of cable
- Variable depth
- Ventilated

Zone 3

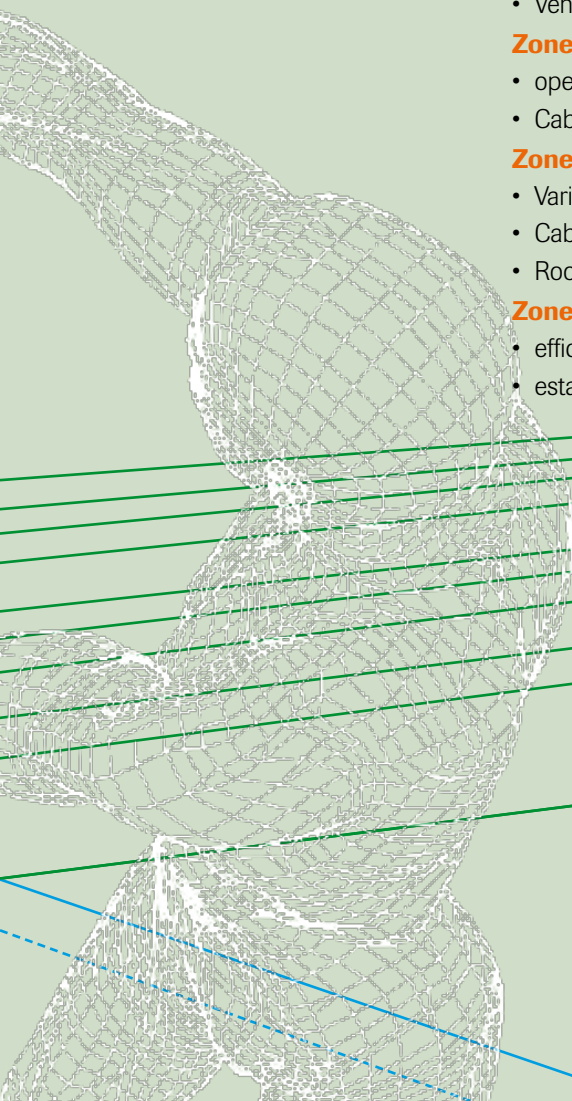

- open vertical cable space, 125 mm wide, variable depth
- Cable leads to any direction

Zone 4

- Variable use
- Cable leads to any direction
- Room for power distribution and infrastructure design

Zone 5

- efficient cable management
- establish many 19" levels with variable depth

IT RACKS – solutions for advanced requirements

Six compelling reasons that speak for haewa's modular system:

3.

Easy outfitting of the interior

Well conceived components

- Standardized 19" level
- For active and passive modules
- Complete installation parts offering

4.

A healthy environment for the rack

Air treatment where heat emanates

- maximized air flow with 81% open honeycomb doors
- side positioned air duct permits high packaging density
- efficient heat removal via selective placement of fan chassis

2

IT RACKS – solutions for advanced requirements

Six compelling reasons that speak for häwa's modular system:

5.

RACK safety

with complete grounding

- conductive connection between Racks is established at assembly
- all 19" pattern mountings and all movable and fixed components are integrated within the grounding scheme
- protection per DIN EN 60439-1 is affirmed

6.

RACK integrity

Highest quality workmanship

Static capacity up to 1200 kg/2640 lbs

- Cable management of up to 1000 data cables in front and back of the 19" level
- Room for adequate bend radii and cable runs in all directions
- Room for power supply and distribution
- Optimized to standardized dimensions of 600 mm spacing of below ground floor tiles

2

BASIS

LOGIK

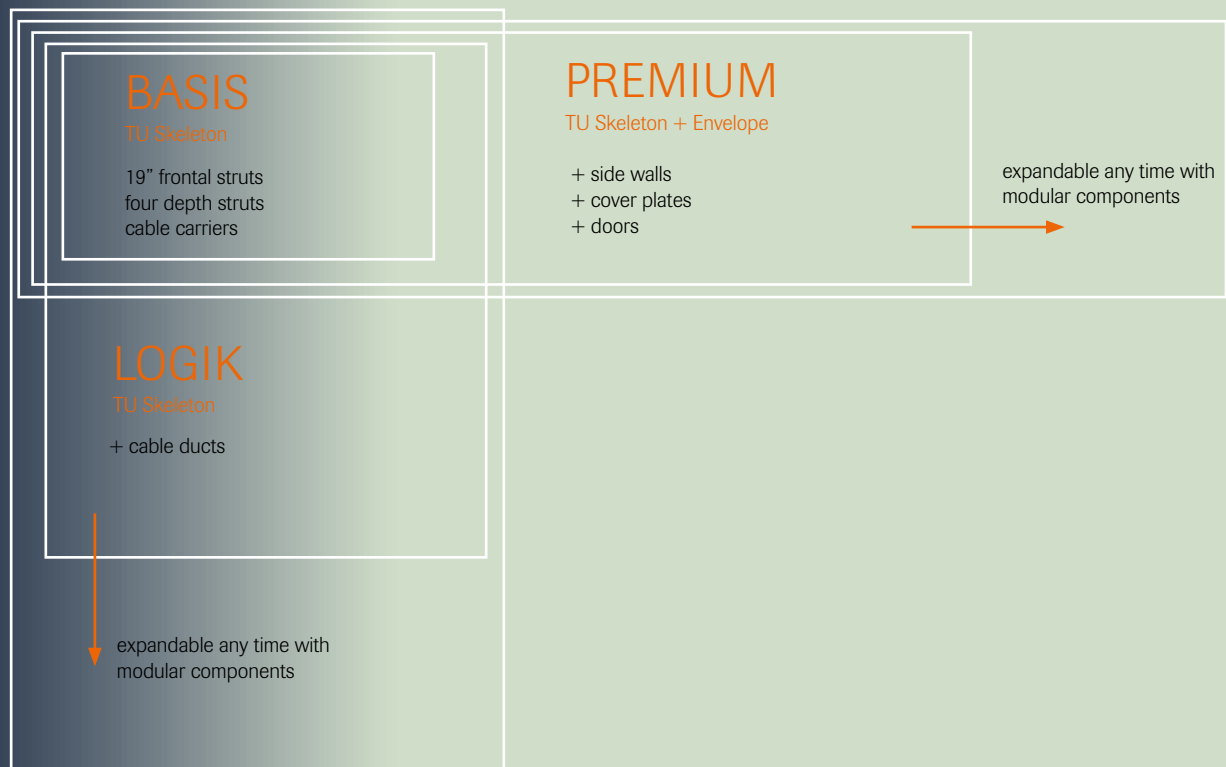

PREMIUM

Haewa's answer: Modular system Three pre- assembled starter units Optimized for network distribution

- expandable depth
- expandable as ganged RACK
- flexible outfitting
- accommodates customer's hardware
- top side cable management
- integral grounding
- on-site expansion

**Quick results, with the
right preparation.**

**Ready for the future –
with the right IT RACK**

BASIS 42U

Network distribution RACK B-750,
H-2068 mm (42U)
Basic module TPM1 accessible from all sides via
removable panels.
Usable height 42U independent of future
expansion needs. All notched profiles with U
markings. High density cable runs:

672 data cables with patch fields of 24U
ports.
Grounding: all individual RACK parts, plus
19"level, conductively integrated to ground
(except adjustable top covers).
Grounding via four M8 x 20 mm screws.
Surface treatment: galvanized or RAL 7035

Needed for shipping:

Plywood base
part no. 9138-8574-16-00
RACK is pallet mounted for transport.

Description	usable depth in front and rear of first 19"level	depth	part. no.
BASIS 395, network distribution	128/395 mm	570 mm**	9108-7542-75-07*
BASIS 440, network distribution	128/440 mm	615 mm	9108-7542-61-07*
BASIS 570, network distribution	128/670 mm	745 mm	9108-7542-72-07*
BASIS 900, network distribution	128/900 mm	1075 mm	9108-7542-10-07*

BASIS 45U

Network distribution RACK B-750,
H-2200,5 mm (45U)
Basic module TPM1 accessible from all sides via
removable panels.
Usable height 45U independent of future
expansion needs. All notched profiles with U
markings. High density cable runs:

720 data cables with patch fields of 24U
ports.
Grounding: all individual RACK parts, plus
19"level, conductively integrated to ground
(except adjustable top covers).
Grounding via four M8 x 20 mm screws.
Surface treatment: galvanized or RAL 7035

Needed for shipping:

Plywood base
part no. 9138-8574-16-00
RACK is pallet mounted for transport.

Description	usable depth in front and rear of first 19"level	depth	part. no.
BASIS 395, network distribution	128/395 mm	570 mm**	9108-7545-75-07
BASIS 440, network distribution	128/440 mm	615 mm	9108-7545-61-07
BASIS 570, network distribution	128/570 mm	745 mm	9108-7545-72-07
BASIS 900, network distribution	128/900 mm	1075 mm	9108-7545-10-07

Accessories

Cable mounting kit

Description	part. no.
Matching the width of cable carrier; permits optimal use of space for cable management within zone 5.	9118-7230-02-00

Flat clamps

Description	part. no.
For expanding the cable arrangement of the cable mounting kit.	9118-7230-01-00

Foam spacer

Description	part. no.
Used as protective spacer for data cables in arrangements with cable mounting kit.	9138-0230-00-70

Optional with usable depth of 900 mm:
an added 240 data cables is made possible
with a second level of cable carriers.

**Depth matching floor tile pattern of 600 mm spacing
* added delivery time

LOGIK 42U

Network distribution RACK B-750,
H-2068 mm (42U)
Basic module TPM1 accessible from all sides via
removable panels.
Usable height 42U independent of future
expansion needs. All notched profiles with U
markings. Efficient and simple cable guidance
via plastic cable finger strips and clamps.

High density cable runs:
672 data cables with patch fields of 24U
ports.
Grounding: all individual RACK parts, plus
19"level, conductively integrated to ground
(except adjustable top covers).
Grounding via four M8 x 20 mm screws.
Surface treatment: galvanized or RAL 7035

Needed for shipping:

Plywood base
part no. 9138-8574-16-00
RACK is pallet mounted for transport.

with a second level of cable carriers.

**Depth matching floor tile pattern of 600 mm spacing
* added delivery time

PREMIUM 42U

Network distribution RACK B-750, H-2068 mm (42U)
Basic module TPM1 accessible from all sides via removable panels.
Usable height 42U independent of future expansion needs. All notched profiles with U markings. Efficient and simple cable guidance via plastic cable finger strips and clamps.
High density cable runs: 672 data cables with patch fields of 24U ports. Frontal large viewing door, made of 3 mm plexiglass.

Rear door closed. Doors removable.
Left and right top cover with adjustable cable finger strips. Open floor. Side walls removable and lockable. Doors and side walls mountable without tools. Top cover to be installed after routing of data cables. IP20 protection.
Grounding: all individual RACK parts, plus 19"level, conductively integrated to ground (except adjustable top covers).
Grounding via four M8 x 20 mm screws.
Surface treatment: galvanized or RAL 7035

Needed for shipping:

Plywood base
part no. 9138-8574-16-00
RACK is pallet mounted for transport.

Deliverables:

RACK is pallet mounted for transport. Doors and top covers packaged for shipping, but not installed. One lock with 3 mm double lock bar

IT-SOLUTIONS - Server- RACK

Server BASIS 42U

Server RACK B-750, H-2068 mm (42U)
Basic module TPM1 accessible from all sides via removable panels.
Usable height 42U independent of future expansion needs. All notched profiles with U markings.
Honeycomb door with 81 % openings for free air flow.
Locking assembly with 3 mm double lock lever, matching future installation of lever handle with half cylinder.

Closed top cover with three pre-punched openings for future use.
Bottom is open. Top cover to be mounted after routing data or power cabling
IP20 protection.
Grounding: all individual RACK parts, plus 19"level, conductively integrated to ground (except adjustable top covers).
Grounding via four M8 x 20 mm screws.
Surface treatment: galvanized or RAL 7035

Needed for shipping:
Plywood base
part no. 9138-8574-16-00
Cable carrier 42U
part no. 9138-7542-13-03

Deliverables:
RACK is pallet mounted for transport. Doors and top covers packaged for shipping, but not installed. One lock with 3 mm double lock bar

Description	usable depth in front and rear of first 19"level	depth	part. no.

Systems module for any conceivable IT RACK

- For network distribution or server
- Any outfitting configuration imaginable
- All expansions during operation
- Lots of mounting space
- Orderly arrangement for cables
In predetermined zones
With much mounting space

IT-RACK Modular system

Basic module TPM1; top

Description

Basic module TPM1 at top, 1.5 mm thickness, with two ground lugs M8 x 2, arranged at side
Finish: powder coated RAL 7035; contact points and mounting surfaces for depth, raster profiles and doors are uncoated.

Deliverables:

Complete with installed cover, upper flange plate and left and right cover plate. (1) pc.

part. no.

9148-7501-28-17

Basic module TPM1; bottom

Description

Basic module TPM1 at top, 1.5 mm thickness, with two ground lugs M8 x 2, arranged at side; open bottom.
Finish: powder coated RAL 7035; contact points and mounting surfaces for depth, raster profiles and doors are uncoated.

Deliverables:

Complete with installed cover, left and right cover plate. (1) pc.

part. no.

9148-7501-28-07

Depth profile TP

Description

Depth profile for extending depth
For mounting to Basic module TPM1 top/bottom, door frame of rear closure panel, or to more depth profiles. Quick mounting with only one screw. Thickness 1.5 mm.
Galvanized surfaces; exposed surface powder coated RAL 7035

Deliverables:

Includes mounting hardware. 1 set = 4 pcs.

part. no.

length-285 mm

9128-7001-28-00

length-330 mm

9128-7001-33-00

length-460 mm

9128-7001-54-00

19" frontal profile**Description**

19" frontal profile for Zone 1, made of compound bends, for mounting onto basic module TPM1. Notch pattern 9.5 mm² with U markings. Including mounting holes for plastic cable fingers and clamps. Added hole patterns for vertically mounting lights and other accessories.
Material thickness 1.5 mm.
Galvanized.

Deliverables:

Includes mounting hardware
1 set = left and right pcs.

42U

part. no.**9168-7142-00-03**

45U

9168-7145-00-03**Single locked doors****Description**

Doors with spring loaded pin hinges for mounting without tools to door frame and rear panel.
Locking via bar lock mechanism. Standard 3 mm double pin; can be changed to lever handle with cylinder plug.
Can be simply changed to left or right hinged by flipping doors and hardware. Solid mounting contact of hinges on paint free surfaces.
Material thickness 1.0 mm
Powder coated RAL 7035
Paint free contact surfaces

Deliverables:

Complete door with one key and 3 mm double pin.
Includes door stops.
1 pc.

42U

part. no.**9168-7542-00-97**

45U

9168-7545-00-97**Double doors, locked****Description**

Doors with spring loaded pin hinges for mounting without tools to door frame and rear panel.
Locking via bar lock mechanism. Standard 3 mm double pin; can be changed to lever handle with cylinder plug.
Can be simply changed to left or right hinged by flipping doors and hardware. Solid mounting contact of hinges on paint free surfaces.
Material thickness 1.0 mm
Powder coated RAL 7035
Paint free contact surfaces

Deliverables:

Complete doors with one key and 3 mm double bar.
Includes door stops.
1 set = left and right hand doors.

42U, 2 door

IT-RACK accessories

Facings

Description

Facings with spring loaded pin hinges for mounting without tools to Base Module TPM1. Locking via bar lockable lever knob. Bar lock engages plastic cable fingers.
Can be simply changed to left or right hinged by flipping doors and hardware. Paint free mounting surfaces for hinges.
Material thickness 1.0 mm
Powder coated RAL 7035
Paint free contact surfaces

Deliverables:

Complete facings with one key.
1 set = 2 pcs.

	part. no.
42U	9168-1242-00-07
45U	9168-1245-00-07

Door frame

Description

Rear door frame of welded construction to accept one- or two-winged doors.
With mounting supports for up to seven fan chassis.
To be used as stiffening back for heavy duty server racks UPS, etc.
Door frame to be mounted to depth profiles with just four screws.
Paint free mounting contact surfaces.
The frame extends the usable depth by 45 mm in Zone 2.
Material thickness 1.5 mm
Powder coated RAL 7035
Paint free contact surfaces

Deliverables:

Includes mounting hardware
1 pc

	part. no.
42U	9168-7542-70-07
45U	9168-7545-70-07

Closure facing

Description

Rear closure facing to accept one- or two-winged doors – two pcs. needed.
Closure facing can be used as horizontal upper strut with open distribution racks.
Requires only two screws for attachment at top and bottom depth profiles.
Paint free mounting contact surfaces.
The frame extends the usable depth by 45 mm in Zone 2.
Material thickness 1.5 mm
Powder coated RAL 7035
Paint free contact surfaces

Deliverables:

Includes mounting hardware
1 pc.

part. no.
9168-7510-02-07

Side walls

Description

Sidewalls insertable at bottom; snaps in at top and uses lockable rotating knob.
Automatic grounding via insert clamps.
Made with two added bends beyond 460mm depth applications.
Material thickness 1 mm
Powder coated RAL 7035
Paint free contact surfaces

Deliverables:

Includes locking hardware
One key
Loose mounting brackets
One set = 2 pcs.

Plastic cable finger strips

Description

Simple, flexible cable guidance over the entire rack height.
Secure transition of cable bundles of individual subassemblies from Zone 1 to Zone 3.
Economical gain from bundling via cable finger strips.
Material thickness 4 mm
Black color

Deliverables

Includes mounting hardware.
One set = 2 pcs.

	part. no.
42U	9138-0042-00-06
45U	9138-0045-00-06

Cable guidance bracket

Description	Width	combined with		part. no.
		depth profile	cable carrier	
	213 mm	TP 330	165 front mounting	9128-0007-21-07
	241 mm	TP 285	230 rear mounting	9128-0007-24-07
	289 mm	TP 330	230 rear mounting	9128-0007-28-07
	354 mm	TP 330	165 rear mounting	9128-0007-35-07

Size of Zone 3 is determined by choice of cable guidance brackets.
Optimal quantity and management of large cable bundles achieved by combining depth profile, suitable cable carrier and top/bottom cover.
Material thickness 1,5 mm
Powder coated RAL 7035

Deliverables

Includes mounting hardware.
One set = 10 pcs.

IT-RACK accessories

Cable carrier

Description

Cable carriers serve several important functions within zone 5. They form the basis for several 19" levels. They also determine the connectable data cable bundles onto patch fields, etc., by selecting a specific width. A strong C-profile includes this hole pattern:
9.5 mm² for 19" raster for accepting the deep depth extender, U-brackets and 19" L-rails. Beyond inside width 133mm several T-nuts used for flexible mounting of 19" profiles and cable mounting kits for cable management. Cable carriers also define zone 4, when infrastructure is important for power input of IT racks. Material thickness 1,5 mm Galvanized

Deliverables

Includes mounting hardware.
1 set = left and right pcs.

		for cable arrangement	part. no.

230 mm		24 data cables per layer	9118-7230-01-00

Flat spacer

Description	fits cable carrier	for cable arrangement	part. no.
Foam spacer used as added data cable protection for arranging cables with cable mounting set.	133 mm	12 data cables per layer	9138-0133-00-70
	165 mm	16 data cables per layer	9138-0165-00-70
	230 mm	24 data cables per layer	9138-0230-00-70

Deliverables

1 set = 100 pcs.

19" profile

Description		part. no.
19" profile for zone 5; with multiple bends to permit heavy localized loading. Stepless mounting along depth profile. Raster pattern 9.5 mm2 with U marking. Added hole pattern for attaching partition panels and other accessories. Profile forms cable channel with large openings for distribution fore and aft. Material thickness 1,5 mm Galvanized	14U	9128-7214-00-03
	42U	9128-7242-00-03
	45U	9128-7245-00-03

Deliverables

Includes mounting hardware.
1 set = left and right pcs.

19" L-rail

Description		part. no.
19" L-rail for zone 5. Raster pattern 9.5 mm2 with U marking. Added hole pattern for attaching partition panels and other accessories. Stepless mounting along depth profile; mounting to cable carrier with U-brackets. Material thickness 1,5 mm Galvanized	3U	9128-7303-00-03
	42U	9128-7342-00-03
	45U	9128-7345-00-03

Deliverables

Includes mounting hardware.
1 set = left and right pcs.

IT-RACK accessories

U-bracket

Description

U-bracket with notches for hanging cable carriers.
Optional added safe attachment with locking screws M6 x 12mm
Special hole pattern ensures U forming mounting of 19" L-rails.
Sides with 19" raster holes 9.5 mm for vertical mounting of 19" accessories, like power strips.
Material thickness 1,5 mm
Galvanized

fits cable carrier

Snap-in mounting secured by integral V2A stainless steel springs.
No added screw attachment needed.
Flat design of 4 to 6 mm thickness outside.
Two grooves permit easy access for filter exchange.
Keyed to prevent wrong insertion of frontal screen
Power: 19/15W (24 VDC 7.4W)
Free air flow 160/180 m³/hr (94/106cfm), with filter screen EU3 40/43 m³/hr
Noise level 46/50 dB(A)
IP44/54 protection
Temperature -10 to +55 deg C
Motor connection: flat plug 2.8 x 0.5 (24VDC: 300mm leads)
Motor registration DE, CE, UL, CSA
Material: plastic ABS RAL 7030 gray or RAL 7035 fire suppressing UL 94 V-0
Options: Temperature controller 3159-9003-10-01 and 3159-9004-10-01, Power cable, Miniature thermostats, Fixed thermostats

19" Rack mount heat exchanger WE2800 V

Description	Width		height		depth		weight		voltage	Frequenz Hz	part. no.
	mm	inch	mm	inch	mm	inch	kg	lbs			
	444	17.48	170	6.69	460	18.11	13.7	30.21	230	50/60	3117-2800-23-07

For use with cooling water
 This air/water heat exchanger is built as 19" depth extender 4U and usable, where cold water is available as cooling medium.
 Frontal air exhaust – high air volume
 A thermostatically controlled valve – with checking feature – is built in to save water and to prevent excessive cooling.
 The temperature can be controlled to between +10 and +50 deg C, locally anywhere within an enclosure.
 Separate cable for thermostat.
 105 W power usage
 Nominal current 0.49A
 Cooling capacity with L35W10: 200 l/hr: 2500W; 400 l/hr: 2800W;
 Air flow 450 m3/hr(266cfm)
 Noise level 40 dB(A)
 Max. ambient temp. +57 deg C
 Clean water used for cooling
 Pressure 10 bar max.
 Water connection: WE2800V: 3/8" internal thread
 Condensate drain tube 10 mm dia.
 Frontal dimensions, including handle 19"/4U: WxHxD = 483x177x44 mm
 CE approved
 Materials:
 Heat exchanger copper/aluminum
 Housing/cover/front: steel 1 mm, powder coated RAL 7035

Deliverables

Rack mount heat exchanger drawer
 Two power cables
 Thermostat with hat section rail
 Mounting hardware

Temperature controller

Description	width		height		depth		weight		part. no.
	mm	inch	mm	inch	mm	inch	kg	lbs	
	37	1.46	64	2.52	46	1.81	0.06	0.03	3150-0061-02-30

Temperature controller with switching contact and thermal compensation (small switching hysteresis)
 Temperature controller for regulating enclosure heaters, filter fans, fan racks, heat exchangers, etc.
 Ratcheting adjustment knob; gray dial
 Thermal compensation built in
 Simple attachment by snap-on to 35 mm rails per DIN 50022
 Control range 0 to +60 deg C
 Storage temp. -20 deg C. to +80 deg C
 Switching power (100 – 250 VAC):
 Heating (open) 10A or DC 30W
 Cooling (close) 5A or DC 30W
 Switching hysteresis: approx. 5 deg K or 1 deg K with thermal compensation
 Contact type: switch
 Connection: four screw clamps 2.5 mm²
 Sensor: bimetal
 Life: >100,000 actuations
 IP 20 protection
 VDE, UL approved
 Material: plastic light gray, UL94 V-O

Deliverables

Temperature controller with snap-on mounting

IT-RACK accessories

Miniature thermostats

Description	Width		height		depth		weight		contact	usage	part. no.

	37	1,46	64	2,52	46	1,81	0,06	0,13	close	cooling	3150-2060-02-30

Thermostatically closing (blue dial) for controlling of filter fans, air cooling depth extenders, heat exchangers, etc.

Range: 0 deg to +60 deg C

Storage temperature -20 to +80 deg c

Ambient temperature 0 deg to +60 deg C

Switching power (100 to 250 VAC):

Ohm load: 10 A

Inductive load: 2 A

DC 30W

Switching hysteresis 4 to 7 deg K

Contact type: closing

Connections: two screw clamps 2.5 mm²

Sensor: bimetal

Life: >100,000 actuations

IP 20 protection

VDE, UL approved

Material: plastic light gray, UL94 V-O

Deliverables

NO (Normally Open) for controlling of filter fans, heat exchangers, air conditioners and for signaling at excessive temperature.

Contact closing at increased temperature.

Switch-off at 50/60/35 deg C (+/- 4 deg K)

Switch-on at 40/50/25 deg C (+/- 5 deg K)

IP 20 protection

Approval: planned VDE and UL

Material: plastic, light gray UL94 V-O

Deliverables

Fixed thermostat with quick mounting

Motor cables

Description	Type	part. no.
Type: 2-pole with molded-on plug, black PVC, 1m.	2-pole	3140-0000-01-00
Type: 3-pole with sleeved lead and insulated Fast-on plugs 2.8 x 0.5 and ground lead with circular plug; 3m length	3-pole	3140-0000-03-00

Deliverables

1 pc

Cross-strut

Description

Cross-strut for stiffening the ends of depth profile, also connection between successively mounted depth profiles.
Top and bottom mountable.
Secure contact with contact washers.
Material thickness 1,5 mm
Powder coated RAL 7035

part. no.

9118-7500-01-07

Deliverables

Includes mounting hardware.
1 pc

Clamp bracket

Description

Small clamp bracket for row mounting.
Mounting via hooking clamps into side hole pattern of depth profile, subsequently tightening of pre-mounted screw/nut
Material 2 mm
Galvanized

part. no.

9118-7010-00-00

Deliverables

Pre-mounted
1 set = 4 pcs.

Floor mounting brackets

Description

Brackets for mounting to sunken floor profile, resp. securing to pallet during transport
Material thickness 1,5 mm
Galvanized

part. no.

9118-7002-00-00

Deliverables

Includes mounting hardware.
1 set = 4 pcs.

Plywood transport sheet

Description

Pre-drilled plywood sheet for transport to stabilize racks without door frame, and also during moving at site.
Material: untreated OSB or plywood

740x850x16 mm

Caged clip nuts

Description

Caged clip nuts
Nut insertable from front
No tools needed for installation
For screw attachment of all accessories onto surrounding raster hole pattern
Material: steel, zinc plated

Deliverables

1 set = 100 pcs.

	part. no.
M6	2070-7202-06-00

Locking screw

Description

Serrated lock screw
Material: zinc plated and blue chromated

Deliverables

1 set = 100 pcs.

	part. no.
M6	0348-7500-06-12

Grounding cables

Description

Set of grounding cables for grounding all covers in all versions

part. no.

3080-9036-95-08

Deliverables

7 cables, including hardware and grounding labels

Locking lever

Description

Handle for mounting to enclosure doors.
Mateable to half cylinder lock barrels DIN 18252, 40 mm long or to cylinder head protruding up to 5mm.
Left or right side mountable.
Color: black with haewa logo

For 1 & 2 door IT Racks

part. no.

3070-0904-55-01

Deliverables

1 pc. Complete with gasket and hardware

Half cylinder lock barrel

Description

Half cylinder lock barrel
Matching to locking lever
Self locking insertion
Material chrome plated zinc and nickel plated brass
