

Heat Exchanger Solutions

for electric & electronic cabinet systems

- Air/Air and Water/Air
- Superior Quality
- Maintenance Free
- Excellent Value
- In Stock

Maintenance free

 No filter required due to design of heat exchanger

Compact Design

- Small space
- High performance

Seal

- Special foam seal
- Maintains NEMA 12 rating of enclosure

High Quality

- Only highest quality components
- Two sealed circuits separate the inside and outside loop

Surface finish

- Powder coated (Epoxy Polyester) RAL 7035 texture finish
- Stainless steel on request

häwa

- (1) At flow rate of 1.76 gpm (400 l/h); except for 5000 W unit, which is rated at 3.52 gpm (800 l/h).
- (2) All water/air heat exchangers will be shipped with a häwa thermostat 3150-2060-02-xx. This thermostat can be used to switch the power to the inner circuit fan. It should be installed inside the enclosure, at the point where the temperature is to be controlled.
