

# Duo-Coil™ Features

Newly designed Parker Duo-Coil combines both tractor-to-trailer lines (service and emergency) into a strong single unit. The specially designed Duo-Coil will provide years of trouble-free service.

## Parker Duo-Coil has built in the following features:

- Reverse winding of the coiled air brake lines eliminates the possibility of tangling.
- Installation swivel fittings make hook-up a snap.
- The inner red emergency coil is wound inside the blue service coil offering added protection to the driver.
- The single unit provides clean and neat installation.
- Parker product testing for -70°F to +200°F provides performance confidence at low temperatures as well as the best cold temperature warranty in the business.

## Application

The right connection for quick, trouble-free hook-up between your tractor and trailer. Whether it's an extended trailer with outboard valve ports on the chassis or high or low air ports on the cab, Parker Duo-Coil has the right configuration for your rig.\*

- \* Parker Duo-Coil assemblies fully comply with D.O.T. requirements covering coiled nylon brake tubing as stated in Chapter III– Federal Highway Administration, Department of Transportation, Subchapter B – Motor Carrier Safety Regulations [Docket No. MC-41; Notice No. 73-9], Part 393–Parts and Accessories Necessary for Safe Operation.

## How to Order:

Duo-Coil kits are supplied complete—**Parker pre-assembled**, with everything needed, including spring guards and pipe end NTA fittings, **ready to install**. Special pipe thread sealant is factory applied. No cutting or fitting assembly is necessary. Just attach the gladhand to either end. Nylon tubing used in Duo-Coil conforms to SAE J844d (Revision c), Type 3B (3B refers to reinforced tubing).

Kit Coil Number	Tube O. D.	Valve Tail	Brass Male Ends (NPT)		Working Length ft.	Number of Coils
			Valve	Gladhand		
#						
801048	-8	12	1/2	1/2	15	21-1/2
801632	-8	6	1/2	1/2	12	18-1/2
801595	-8	40	1/2	1/2	15	21-1/2

**Note:** Gladhands not supplied.
