

## General Description

Series GF valves isolate gages from damage and inaccurate readings caused by line pressure surges and hydraulic hammer.

## Operation

The GF uses a capillary orifice to smooth out line pulsations and surges without the use of any moving parts.

## Features

- One piece construction.
- The GF requires no adjustment or maintenance.

## Specifications

<b>Maximum Operating Pressure</b>	207 Bar (3000 PSI)
-----------------------------------	--------------------

## Ordering Information
