

ROTZLER
Competent hoisting and pulling solutions

ROTZLER – The company

ROTZLER is one of the world's leading companies in the development and production of winches. Our name stands for technologically sophisticated and premium quality winches with a long service life. Our head office in Steinen along with our Canadian subsidiary, ROTZLER INC., in Vancouver, and ROTZLER KOREA LTD. in Changwon ensure an optimum degree of customer closeness.

Products

ROTZLER GMBH + CO. KG is a worldwide provider of first-class solutions for the diverse challenges associated with hoisting and pulling loads.

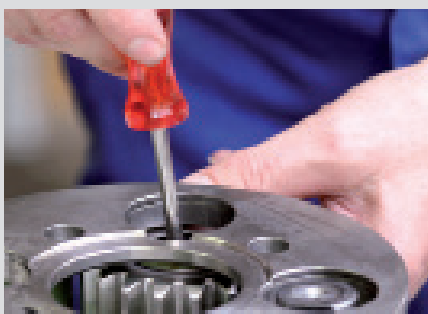

Our TITAN and TREIBMATIC winches are strong, established brands on the international market. ROTZLER winches and winch systems are in successful use in rescue vehicles, loading cranes, military vehicles, drilling applications and in the fishing industry all over the world.

Systems

Our extensive product and application expertise enables us to implement systems that are tailored to suit the customer's specific needs. In the course of many years ROTZLER has become a globally leading provider of all-round solutions, particularly for military applications.

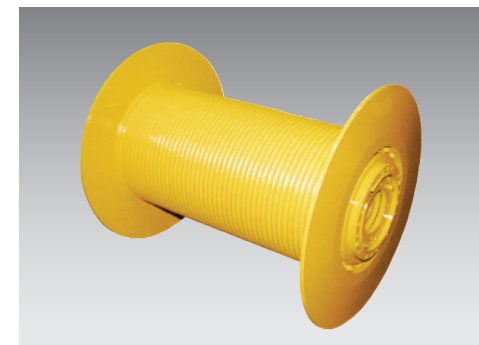

After Sales Services

ROTZLER's After Sales Services aim to provide the ultimate in customer care with a range covering overhauls of complete winch systems, yearly safety verification tests, maintenance contracts and concepts as well as product training and competent advice.

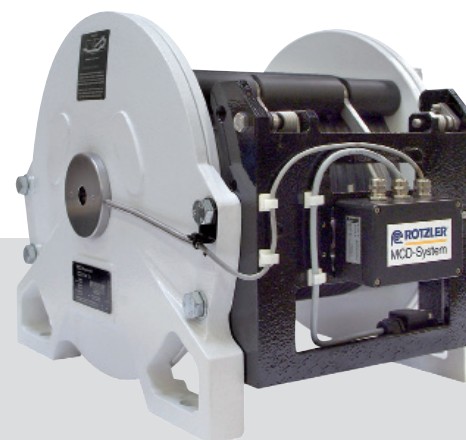

ROTZLER Hoisting winches

ROTZLER's hoisting winches are ideal for lifting and lowering heavy loads. They are excellent for installation in mobile and assembly cranes, stationary crane systems, construction machinery and drilling equipment and all satisfy the requirements of these applications – reliably and precisely. This ensures more flexibility, time savings and higher productivity in practice. Fitted with a measuring control device (MCD), ROTZLER hoisting winches can be perfectly

ROTZLER HK

integrated into the control and safety functions of modern systems. Especially our lightweight and compact TITAN winches have proven their global value for the fishing industry and loading cranes in particular.

Applications	Series	
	HK	TITAN
Truck loading cranes	+	+++
Marine cranes	+	+++
Drilling equipment	++	+++
Mobile cranes	+++	+
Fishing industry	+	+++

ROTZLER Recovery winches

ROTZLER's winches for recovery and self-recovery are impressively reliable and durable, whereby their superior operating safety, simple handling and robust design make them particularly attractive for users. The range of applications is practically boundless. They provide reliable services in trucks, recovery and towing vehicles, low loaders, heavy-haulage vehicles, agricultural and forestry equipment, for road maintenance and industrial applications.

ROTZLER HZ

ROTZLER's HZ and TREIBMATIC series offer the right solution for the most diverse civilian and military applications. In addition to the extensive set of standard features, numerous optional extras and useful accessories are also available.

Applications	Series	
	HZ	TREIBMATIC
Military vehicles	+	+++
Agricultural vehicles	+++	
Fire-fighting vehicles	+	+++
Construction industry	+++	
Wrecker trucks	+++	+++
Industrial applications	+++	

ROTZLER Services

The customer consulting services provided by the experienced project engineers of our global sales network ensure we can deliver an appropriate solution for any hoisting and pulling needs. Tailor-made winch systems are created in close cooperation with the customer, from design through prototype approval right up to installation. Competent installation teams at Steinen or on the customer's premises ensure perfect product integration into the respective vehicles.

ROTZLER installation service

User-specific seminars, training sessions and economic maintenance concepts offer further advantages. The quick supply of spare parts and a global repairs service are ensured by ROTZLER After Sales Services.

ROTZLER – Strong winches, strong partner

ROTZLER winches provide effective and reliable help whenever human power is insufficient to lift or pull a load. Our versatile range goes from standard winches through customized systems right up to extensive services. The fields of application are as diverse as our range of products and services.

Whether it's the fire brigade, military, fishing or construction industry, custom engineering sector, agricultural or forestry industry – they all trust in ROTZLER technology. And rightly so – our products stand for outstanding ease and safety of operation.

Quality and performance – a safe bet

Typical conditions for hoisting and pulling applications are simulated in the unique test center in Steinen, which was purpose-designed and -built by ROTZLER to perform winch tests. Around-the-clock endurance tests ensure the reliability, safety and performance of ROTZLER winches.

Our customers rely on that – worldwide.
