

# 1050 Ballistic Nylon

The *Suburban Sidewinder Sleeve™* is a protection sleeve used for bundling and wrapping hoses and cables. The reusable sleeve features Mil-Spec extreme Hook & Loop closure which allows installation without disconnecting hoses and can reduce labor time by 70%. The sleeve is available in a variety of different material and can be customized in order to meet the needs of any application.

## Typical Applications

The *1050 Ballistic Nylon Sleeve* is the best all around cover for most applications. It is well suited for bundling, abrasion and operator protection (EN982, ISO NORM 833, EN414). The *1050 Ballistic Sleeve* is typically used on mobile equipment, industrial machines, covering tables, wiring bundles and hydraulic cylinder protection. This product is not recommended for welding applications.

### 1050 Ballistic Material Features

<b>Material:</b>	Mil-Spec 1050 Ballistic Nylon, 1.7 mil urethane coating
<b>Temperature Range:</b>	-60° to +250° F
<b>Abrasion:</b>	Very good; meets ISO 6945 specifications
<b>Puncture/Tear:</b>	Excellent; very puncture and tear resistant
<b>UV Protection:</b>	Very good; meets EN13758-1 top rating of 80 New/Dry
<b>Chemicals:</b>	Very good resistance to water and petroleum
<b>Wicking:</b>	Very good; sheds surface moisture
<b>Welding Sparks/Spall</b>	Not Recommended

*1050 Ballistic Nylon* is the most commonly used Sidewinder Sleeve™ for abrasion of industrial hoses and hydraulic cylinders

**Full Roll is 150 Feet**
